## FACULTY DEVELOPMENT PROGRAMME

### “How to Write a Research Paper”

Research has become an intrinsic part of academic activity. It not only adds to the academic profile and curriculum vitae of a teacher but has implications for a teacher’s career advancement. Writing a research paper is an art. A researcher needs to be acquainted with the nuances of analyzing and translating his/her field data into written format. Given the significance of research in academics and the connect between research publications and career advancements particularly at the college level, a One Day FDP for the teaching faculty of the college was organized on the 16<sup>th</sup> of October 2017 by the Department of Economics of the college. The topic was “How to Write a Research Paper.” Dr. M.R.Patil, the Principal of Vidyaprabhodhini, Porvorim was the resource person. He was welcomed by the Officiating Principal Dr. Maria Fatima de Souza and introduced by Dr. Elizabeth J Henriques, Head, Department of Economics.

Dr. M.R.Patil discussed at length the structure and methodology to be adopted while putting on paper research findings and shared his experiences with research with the participants. Faculty from neighbouring colleges were also invited and participated in the programme.

Participants in rapt attention as Dr. M.R.Patil elaborates on the modalities of writing out research papers

## FACULTY DEVELOPMENT PROGRAMME

### Decoding of Intellectual Property Rights

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect, and primarily encompasses **copyrights, patents, and trademarks**. It also includes other types of rights, such as **trade secrets, publicity rights, moral rights**, and rights against **unfair** competition.

**Intellectual property law** deals with the rules for securing and enforcing legal **rights** to inventions, designs, and artistic works. Just as the **law** protects ownership of personal **property** and real estate, so too does it **protect** the exclusive control of intangible assets.

In order to create awareness among the faculty and the students about IPR, a talk was organized on the topic “Decoding of Intellectual Property Rights” on the 12<sup>th</sup> of February 2018.

The resource person was Dr. Ranjana Ferrao, Assistant Professor of Law, Salgaonkar College of Law, Miramar-Goa. She spoke to the participants on copyrights, trademarks and patents. The programme was organized by Ms. Shirley Souza, Faculty of Law of the college.

Students who had participated in the Mock Parliament Competition organized by the Goa Legislative Assembly were felicitated on the occasion.

## REPORT OF FACULTY DEVELOPMENT PROGRAMME

### “HEALTHY DIET FOR A HEALTHY LIVING”

*A good diet is important for our health and can help us feel our best - but what is a good diet?*

The IQAC of Government College of Commerce & Economics, Borda, Margao, conducted a faculty development programme for the Administrative staff of the college on the 2<sup>nd</sup> of May 2018. It was well attended by Faculty and Staff of GCCE, Borda and Staff and students of ITI Borda, Margao.

Ms Nisha Sarvankar, Dietician and Nutritionist was the Resource Person and highlighted the importance of a healthy diet which could De-Stress the employees at the workplace and thus enable them to function well.

Ms Kalashri Lotlikar, Asst Professor, Commerce, GCCE, Borda introduced the Resource person.

The main areas of discussion were, kinds of food and diet, exercise as a part of daily routine, intake of vitamins and supplements, water as an important ingredient in our body and daily intake recommendations.

Topics also discussed were, importance of balanced diet and how to achieve it, and stressed on how a healthy diet contains a balance of food groups and all the nutrients necessary to promote good health.

Ms Nisha also highlighted that human nutrition is enormously complex and a healthy diet may vary widely according to an individual's genetic makeup, environment, and health.

Healthy eating is the practice of making choices about what and/or how much one eats with the intention of improving or maintaining good health.

Typically, this means following recommendations for a healthy diet.

The concept of healthy eating is primarily a problem where the lifestyle includes a modicum of outdoor physical activities, high but not always high-quality food consumption, and a trend towards industrially-produced foods instead of locally-sourced, locally-prepared meals.

The session ended by questions asked by the Staff and students relating to the topic.
